NEW NORMAL HEAD

PROF. IRA RICHARDSON TO SUCCEED DR. TAYLOR.

NOW ACTING PRESIDENT

Change to Take Place June 1 Determined On at Last Board Meeting Announced Saturday.

Dr. H. K. Taylor, who has been president of the Northwest Normal school in this city since September 1, 1909, has resigned his position with that institution to take effect on June 1st. The resignation was due to the condition of his health, he having been confined to his home the greater part of the winter.

Prof. Ira Richardson, head of the education department and director of the training school of the Normal here, will be acting president of the school until June 1, at which time he will become president of the institution. Mr. Richardson was selected by the board of regents at their last meeting after accepting the resignation of Dr. Taylor. His selection as president is for one year. As Dr. Taylor will probably be unable to attend to the office on account of his health the board decided to let Mr. Richardson be the acting president until June 1 so as to get a few pointers on the running of the school administration before taking his office as president.

Dr. Taylor was out of the city Saturday, having left on Thursday for a visit with his daughter, Mrs. J. C. Godby at Arlington Texas, and also with Mrs. Taylor's brother, W. M. Sandifer. The trip was taken for the benefit of Dr. Taylor's health. It is feared that he had a mental breakdown, due to his hard work at president of the school. His health for the past two years has not been good.

Dr. Taylor has no definite plans for the future. He is to first try to regain his health.

Since Dr. Taylor has been president of the school, he has made an excellent head of the institution and the Normal has grown. His work has been most satisfactory and it is with deep regret that it is necessary for him to leave on account of his health. We wish him success and hope that he will regain his health.

Prof. Richardson attended the rural schools of Holt county and graduated from the Mound City high school in 1891. He attended the Missouri state university one year, from 1893 to 1894, and received the Ph. B. degree June, 1897. He then went to Columbia university, New York City, and attended the regular session of 1907-1908, the summer sessions in 1907 and 1908. He received the A. M. degree from Columbia and Master's diploma in education from the teachers' college, May, 1908. The education work represents major studies in school administration and allied courses with emphasis on teacher training.

As a teacher, Prof. Richardson was a teacher in the rural schools of Holt for two years from 1891 to 1893. He was superintendent of the Shelbyville schools for four years from 1897 to 1901, superintendent of Shelbina schools for six years from 1901 to 1907, and elected for the 1908-1909 session. He was county commissioner of public schools of Shelby county, November 1898 to 1903. He was professor of school administration and history of education, fourth district normal school at Springfield, Mo., from 1908 to 1911. He was director of the training school at Springfield, and came to the Northwest State Normal at Maryville in 1911, and has been the head of the department of education and training since that time.

Prof. Richardson has been active in school matters in Missouri. He has knowledge of organization of Missouri state normals and others through visitation and acquaintance with faculties. He was a former resident in the fifth district, having knowledge of its people and economic and other conditions. He has had his residence in this state for more than thirty years, and he has an intimate knowledge of schools, school men, and tendencies in the state for more than fifteen years. He is a member of the State Teachers' association and has been since 1897, giving him personal acquaintance with leading school men of the state. He is an active member of the National Educational association since 1904, giving him personal acquaintance outside of the state. He has an intimate knowledge of present needs and conditions of the school from personal contact.

Prof. Richardson will make a good president, and the Democrat-Forum wishes him success in his new field.

LISTS GOOD FERTILIZERS.

Bulletin of the College of Agriculture Tells Farmers Which to Use.

A new bulletin dealing with the fertilizers has just been prepared by the college of agriculture and is now in press. The bulletin gives descriptions and chemical constituents of the standard grade of fertilizers that are to be used in Missouri under the state law.

Heretofore much alleged deception has been practiced by the manufacturers of fertilizers in regard to the materials used in their products. The legislature passed a law which regulates the manufacture and sale of fertilizers and compels the use of certain constituents in them. The new bulletin tells what these constituents must be. It also tells the farmers what brands of fertilizer he can safely buy.

To ascertain the different manufacturers that conform to the standard, the college of agriculture sent inspectors to about seventy-five counties throughout the state to examine samples. The firms whose products were deceptive or were not up to the standard were blacklisted.

THE WAR STILL ON

CONTEST BETWEEN STATE AND COMPANIES CONTINUES.

WILL REVOKE LICENSES

In Spite of Threat of Insurance Commissioner the Companies Continue to Notify Agents to Suspend.

Several other local agents received notices Friday and Saturday from fire insurance companies to suspend writing business here on account of the new law.

Charles G. Revelle, state insurance commissioner, said Friday that he would revoke the license of any fire insurance company that refused to write business in Missouri because of the recent legislation extending the anti-trust laws to fire insurance. The insurance men say that they can't do business safely in this state under the new law and can't use rate cards. They point out if two agents should happen to charge the same rate they could be sent to the penitentiary for conspiracy.

So the war between the state authorities and the fire insurance companies goes on, and what will be the outcome is not known. Up to the present time only union companies have withdrawn, but many are of the opinion that the non-union companies will also withdraw. However, no action has been taken by the non-union companies.

Paul Sisson, an insurance agent, received notices from the Insurance Company of North America, and also from the Fireman's association of Philadelphia to suspend business here.

Nash & Glass received a notice from the Hanover Fire Insurance to quit business.

Mayor A. S. Robey received word from the Fireman's Fund of San Francisco to stop writing business. Mayor Robey also received a letter from the Metropolitan Life Insurance company, in which they say that they want the insurance license tax of $15 repealed in this city, so they can do business here.

Otis & Snodgrass received word from the Philadelphia Underwriters' agency of the Insurance Company of North America, advising them to discontinue writing business April 30. This company, in writing, says:

"For the past five years we have paid to our policy holders in Missouri for losses $75.96 out of every $100 collected in premiums. Adding to this 40 per cent for expenses, including state taxes, municipal and agents' licenses, inspections, supervision and commissions, and we find that for every $100 received for premiums we have paid out $115.96."

O. L. Holmes, local agent for the American Insurance company of Newark, N. J., received a letter Saturday, explaining the company's views on the Missouri situation. The letter in part says:

"At an expense of approximately $200,000, the fire insurance companies, through the Missouri actuarial bureau, have made a recent inspection of property in Missouri, and we are disposed to believe that the rates arrived at by them are not unreasonable. It is extremely unfortunate for the people of your state that recent legislation compels the actuarial bureau to discontinue its labors. Our experience in your state, as compared with that throughout the territory of this department as a whole, does not indicate that we can afford to ignore intelligent inspection and rating of property which it is desired to protect from loss by fire.

"From the exhibit of the business of this company for the past five years in Missouri, it will be seen that with a loss ratio of $66.76 and an expense ratio of $38 for each $100 of premiums received, we have an expenditure of $104.76.

"I wish to say right here that we do not longer propose to draw upon the slender profits of other territory to contribute to Missouri's delinquency. We have in the past five years returned to the citizens of the state nearly $700,000 in payment of losses. We shall not lessen by accepting inadequate rates the quality of your indemnity and must therefore decline business where conditions are not favorable to at least a moderate profit."

Mrs. S. A. McLaughlin of Savannah, who has been visiting Stanberry, went to Hopkins Saturday to visit Mrs. Stephen Pistole and other friends.

Mr. and Mrs. G. W. Gordon returned Saturday noon from a visit with their son near Arkoe.

MAJOR SIGNS ROAD BILL.

Governor Approves Measure Providing for Dragging Highways Between County Seats.

Governor Major on Friday signed senate bil No. 49, which appropriates $15 per mile for dragging roads between county seats and creates a county highway board to have charge of the work. He vetoed senate bill No. 123 by Senator Carter, which distributed the good roads money equally among the several counties of the state.

The money to be used on dragging the roads between the county seats is the automobile license fund. The bill means a great deal to every county in the state. In this county there will be a road dragged to Rockport, one to Grant City, one to Albany and one to Savannah and Oregon, etc. While these roads will be mainly traveled, still it is expected that roads leading up to them will be kept in fine condition in order to get some of the travel.

WHAT THEY DO IN GREEN.

In Wet Season Farmers Go to Town on a Drag Instead of Using a Wagon or Buggy.

Green township has many very enterprising farmers who believe in good roads and in keeping them up. Our attention was called recently to the fact that in that township during the wet season this spring the farmers went to Quitman driving a team or two to a road drag, and in town after trading, returned to their homes still dragging the road along the way coming and going. Not only has one farmer worked this, but several others, with the result that it has helped the roads in that township.

Efforts are being made in Polk township to get the farmers to drag the roads. This township has some of the worst roads, and it is due to the fact that they are not dragged. The farmers here should get busy.

High School Notes

The Postia Quid society held a meeting Thursday afternoon and although there was not a large attendance, which was due to the track work out, it was a very enthusiastic session. The next meeting was postponed another week on account of the preparation of the track meet next Saturday.

Has Disappointed Them.

Governor Major has disappointed his critics in several instances recently. They charged him with securing the passage of the utility bill in order to build a machine for himself. While the bill did not call for a bi-partisan board, he has appointed two Republicans as members of the board and three Democrats. He vetoed the Standard oil bill when it was predicted that he would sign the bill and thus nullify the anti-trust laws in the state. He has declined to call an extra session of the legislature at the demand of the insurance men and calls their bluff by notifying them that if they withdraw from the state they'll not get back while he is governor. Well done, Governor Major, you're all right just as we expected of you.—Gallatin Democrat.

B. Holmes. The study began with Scripture reading and prayer by the president, Mrs. Ogden, and closed for the social hour with prayer led by Mrs. G. B. Holmes. During the serving of an elaborate two-course luncheon Mrs. H. L. Raines gave several delightful vocal numbers. The next meeting of the society will be held the first Friday afternoon in May with Mrs. J. L. Jones of West First street, instead of Mrs. H. W. Hull, as announced in the year book. Delightful Surprise Party.

A very delightful surprise party gathered upon Miss Leila Oliphant, the teacher of Long Branch school in Union township, on last Wednesday, it being the closing day of school. The neighbors gathered at the home of Mr. and Mrs. J. W. Aken about 11 o'clock with well filled baskets and at 1:30 marched to the school house. The table was spread with delicious food. Mr. Joseph Lemaster was the champion cake eater, while Mr. O. G. Null was cake judge, but was afraid to decide. The cakes all scored 100 per cent. One woman becoming hungry, ate all her chickens on the way. The school children in attendance were: Leonard Leech, Amy Leech, Leia Gray, Alvin Gray, Elal Farrell, Florence Farrell, Bernice Farrell, Crystal Copeland, Blanche Alexander, Floyd Sadler. Entertained Girls of W. R. C.

Mrs. Scribner Beech, Sr., opened her home to the girls of the Woman's Relief Corps, one of whom she is, Friday, from 9 o'clock a. m. until 5 o'clock p. m. The day was delightfully spent in quilting, two quilts being the result of the day's work. At 1 o'clock a two-course luncheon was served, during which Mrs. Scribner Beech, Jr., presided at the victrola. When the girls were invited to come to Mrs. Beech's home they were asked to bring a package and take one away. These packages were opened after another lunch was served at 4 o'clock, each opening one brought by somebody else, and much amusement resulted from reading the written messages that accompanied the packages. Mrs. Braniger, the president, made an appreciative speech just before the departure, and Mrs. Honnold proposed three cheers for the hostess, which were freely given. The hostess was assisted in entertaining by Mrs. Rankin Lyle and Miss Elizabeth Saunders. Although everyone had an excellent time, the girls were kept from becoming too hilarious by the presence of the "mother of the corps," Mrs. I. M. Woods. She has heretofore been somewhat given to gaiety herself, but about two weeks ago she and the captain celebrated their fifty-fifth wedding anniversary, and it is supposed she resolved to settle down, for she has acquired a surprising amount of dignity since, and it becomes her wonderfully, so much so that she seems years younger. Two members were present for the day's festivities, Mrs. Sipes and Mrs. Hartman, who have not been able to meet with the corps since last fall on account of sickness. The guests included Mrs. Linnie Braniger, Mrs. Mattie Wade, Mrs. Eliza Black, Mrs. Margaret Hartman, Mrs. Susan Townsend, Mrs. Catherine Funk, Mrs. Fannie Pinnell, Mrs. Catherine O'Neal, Mrs. Catherine Miller, Mrs. Minnie Ford, Mrs. Ella Morris, Mrs. Susan Smith, Mrs. Belle White, Mrs. Mary Herren, Mrs. Sarah Satterlee, Mrs. Viola Croy, Mrs. Jennie Reece, Mrs. Mary Etta Kelley, Mrs. Louisa Maier, Mrs. Maura Moore, Mrs. Nora Holbrook, Mrs. Mary Jean Honnold, Mrs. Flora Quinn, Mrs. Minnie Hopper, Mrs. Mary Hook, Mrs. Laura Housal, Mrs. Anna Bennett, Mrs. Mary Dickerson, Mrs. Lavina Dickerson, Mrs. Henrietta Lahr, Mrs. Mary A. Healthy Old Age Is What Dr. Hartman Advocates

S. E. HARTMAN, M. D.

See here, young man, I heard you complaining the other day of being nervous, sleepless, brain fagged, and the like, A young man, hardly in the zenith of your life, complaining of such things!

And this is very common, too. You are not the only one. Probably three out of four of the young men of to-day have just such symptoms as you describe. What does it mean?

Look at me. I am eighty-two years old. Sound as a nut. Tough as hickory. Do not know what it is to be tired. While I cannot do as much physical work as I used to when a young man, I can do a great deal. Probably twice as much as the average young man of to-day.

What has kept me so strong and well? I will tell you. I do not use tobacco. I do not use alcoholic stimulants. I do not use tea or coffee habitually. I go to bed early. I get up early. I am always doing something; something that occupies my body and mind. I love to work. I take a cold water towel bath every morning, winter and summer. It is these things that have kept me well and strong. You could be just as well and strong as I am if you would do as I do.

You may ask, do I never get sick, have I never had occasion to take medicine at all? Yes, I have got sick. Sometimes I feel a little touch of climatic trouble, like cold, malaria, slight catarrhal symptoms, but my only medicine is Peruna. I always keep a bottle of Peruna in the house. I keep a bottle of Peruna on my desk in my office. Once in a while I take some. I do not take it habitually. Take it only when I feel a little out of sorts. One swallow will perhaps be all that will be necessary, but it is always handy by.

It is a sorry sight to see the young men of to-day begin to peter out physically when they ought to be in the glory of their manhood and the height of their vigor. Eat plain food. Live frugally. Give up all weakening habits. Live as God intended you to live. Take Peruna when you do not feel as well as usual.

If you want me to I will send you a book which will tell you a great many more things about yourself and about matters that may be of great value to you. Enclose a two-cent stamp for postage and the book will be sent in a plain wrapper and you will not be troubled with any follow-up letters or advertisements. PERUNA IS FOR SALE AT ALL DRUG STORES.

SPECIAL NOTICE—Many persons are making inquiries for the old-time Peruna. To such would say, this formula is now put out under the name of KA-TAR-NO, manufactured by KA-TAR-NO Company, Columbus, Ohio. Write them and they will be pleased to send you a free booklet.

To Kansas City Hospital.

Roy Craig, a barber at Clyde, was taken to St. Margaret's hospital in Kansas City Friday night, where he will undergo an operation for appendicitis. Misfortune has seemed to keep pace with Mr. Craig pretty closely. In boyhood he contracted rheumatism and laid in bed a year from it. The disease settled in his right hip and leg and their growth was stunted. A year from the time he was able to be out of bed he fell and broke it again. Just as he was pulling himself together financially from that accident he was exposed to smallpox and was sick a long time from it. He had gotten over all those things and was far enough away from them to refer to them in a very humorous way, when lo, he is taken with appendicitis, and he sees his little pile of savings already gone. He is a cheerful young fellow, and his friends predict he will come out of this trouble all right, just as he did the other things that pursued him. In the meantime they are planning to give him all their patronage when he gets back, to help him up.

Phones—Hanamo 17 1-3, Bell 126

Be Patient, Telephone Users

During the work of installing the new switchboard and changing the phones from the old boards to the new, there is bound to be more or less inconvenience to our subscribers. We ask you to be patient during this very trying time, as we are using every precaution and going to a great deal of trouble to make these inconveniences as few as possible, but the task is greater than you perhaps imagine, and there will be some trouble despite all we can do.

So far you have been exceedingly patient, seeming to understand our difficulties, and for this we thank you.

Why This Trouble

There are several reasons why there must be trouble. Just so you will understand, we'll explain some of them.

First—The new board is an entirely different sort of apparatus, with its signal lights and improvements and automatic ringing devices. This being so, it is a difficult matter for even the experienced operators to handle it with the facility that has become theirs by long handling of the old boards. As for breaking in new operators to handle the service during the transfer, that is out of the question, because they would find it especially difficult.

Second—When the operators are taken from the old boards—both of which, of course, are still in operation—these are left short-handed, thus crippling the service.

Third—As the old subscribers are transferred to the new board, a "trunking" system must be employed in order that the service between the divided system may not be interrupted—and this is slow and cumbrous, but unavoidable.

Stick to Your Old Number

When the Bell subscriber is transferred to the new board, he takes a new number in nearly every case, because his old number conflicts with the Hanamo numbers which will be retained when the two systems are finally merged on the new board. But please call for the old numbers until you are especially notified, even if you happen to know the new ones. We are taking care of the matter with duplicate numbers, according to a simple plan that the operators all understand. Giving them the new number would confuse them.

Don't Crank to New Board

Where you have been transferred to the new board and your old phone changed for the new service, don't use the crank in calling central or ringing off. The phone is automatic, and cranking will get it out of order. If we had time, we'd remove all the old cranks, but we can't get around to it for awhile.

Don't Hang Up Until Call is Through

Get out of the habit of hanging up your receiver when you go to call someone else to the phone. Under the old system this didn't make much difference, but now it means that you thus give a positive signal to the operator to disconnect you, and you lose your party entirely. Let the receiver stay off the hook until you are through using the phone.

Ignore the Tinkle

After your phone has been changed over to the new board, ignore the tinkle when the bell rings just faintly. It's a trouble that will be removed soon, but can't be helped now. If you answer the tinkle, your action calls central, and takes time and means additional trouble for both you and central.

Use the Hanamo

Subscribers having both Hanamo and Bell phones will find that they will get better service by using the Hanamo during the work of transferring the phones.

CLARK AND BRYAN BURY HATCHET

Both Make Public Statements of Their Friendship.

MEET AT PRIVATE LUNCHEON.

Political Circles at Washington Intensely Interested in Reconciliation. In Secretary's Statement Speaker Is Characterized as "Progressive."

Washington, April 19.—Speaker Champ Clark and Secretary William Jennings Bryan met at a private luncheon here, shook hands and issued public statements that they had buried the hatchet and put the personalities of the Baltimore convention with the bygones. The luncheon was arranged by Theodore A. Bell of California.

Intense interest was aroused in political circles over the reconciliation of the two antagonists, whose differences became acute as a result of events at the Baltimore convention.

Secretary Bryan's prepared statement is as follows:

"My meeting with Mr. Clark has served to clear up a misunderstanding as to my exact position toward him at the Baltimore convention. I have tried to make it clear to Mr. Clark that I have always regarded, and do now regard him, as a good, clean progressive Democrat. If my language at Baltimore created any impression that I was charging Mr. Clark with being in sympathy with any of the reactionary forces, I am glad of the opportunity to correct any such misconstruction of my words or actions, for I did not intend to reflect upon either the personal or political integrity of the speaker. It is my earnest wish that there may be cordial co-operation between the state department and the speaker in carrying out the policies of the administration."

Clark's Version.

Here is Speaker Clark's statement: "It is beyond the power of Colonel Bryan or any one else to correct the injustice that was done to me at Baltimore. The loss of the nomination was a small thing as compared to the injury done to my reputation in the eyes of the world.

"But now that Colonel Bryan, in his public statement, has done what he could to remove the injurious impressions that were created by his Baltimore speeches, I feel that we can all the better co-operate for the good of the administration. I can only repeat what I have publicly declared time and time again, that all personal or selfish considerations must give way to the duty that all Democrats owe to our party and to our country."

Just Like Old Pals.

Those in charge of the affair said Speaker Clark and Secretary Bryan exchanged jokes and had a good time. So far as known it is the first time the men have met since the Baltimore convention. Speaker Clark's friends have always said Mr. Bryan prevented his nomination and that it was through Mr. Bryan's activity and influence that the convention, contrary to custom, refused to give the speaker the necessary two-thirds vote after it several times had given him a majority. The reconciliation is looked upon in political circles as the most significant development of the administration so far.

FELT BAD ALL THE TIME

Shellhorn Lady Suffered a Great Deal, But Is All Right Now.

Shellhorn, Ala.—In a letter from this place, Mrs. Carrie May says: "A short time ago, I commenced to have weak spells and headaches. I felt bad all the time, and soon grew so bad I couldn't stay up. I thought I would die.

At last my husband got me a bottle of Cardui, and it helped me; so he got some more. After I had taken the second bottle, I was entirely well.

I wish every lady, suffering from womanly trouble, would try Cardui. It is the best medicine I know of. It did me more good than anything I ever used."

Cardui is a woman's tonic—a strengthening medicine for women, made from ingredients that act specifically on the womanly organs, and thus help to build up the womanly constitution to glowing good health.

As a remedy for woman's ills, it has a successful record of over 50 years.

NEW NORMAL HEAD

PROF. IRA RICHARDSON TO SUCCEED DR. TAYLOR.

NOW ACTING PRESIDENT

Change to Take Place June 1 Determined On at Last Board Meeting Announced Saturday.

Dr. H. K. Taylor, who has been president of the Northwest Normal school in this city since September 1, 1909, has resigned his position with that institution to take effect on June 1st. The resignation was due to the condition of his health, he having been confined to his home the greater part of the winter.

Prof. Ira Richardson, head of the education department and director of the training school of the Normal here, will be acting president of the school until June 1, at which time he will become president of the institution. Mr. Richardson was selected by the board of regents at their last meeting after accepting the resignation of Dr. Taylor. His selection as president is for one year. As Dr. Taylor will probably be unable to attend to the office on account of his health the board decided to let Mr. Richardson be the acting president until June 1 so as to get a few pointers on the running of the school administration before taking his office as president.

Dr. Taylor was out of the city Saturday, having left on Thursday for a visit with his daughter, Mrs. J. C. Godby at Arlington Texas, and also with Mrs. Taylor's brother, W. M. Sandifer. The trip was taken for the benefit of Dr. Taylor's health. It is feared that he had a mental breakdown, due to his hard work at president of the school. His health for the past two years has not been good.

Dr. Taylor has no definite plans for the future. He is to first try to regain his health.

Since Dr. Taylor has been president of the school, he has made an excellent head of the institution and the Normal has grown. His work has been most satisfactory and it is with deep regret that it is necessary for him to leave on account of his health. We wish him success and hope that he will regain his health.

Prof. Richardson attended the rural schools of Holt county and graduated from the Mound City high school in 1891. He attended the Missouri state university one year, from 1893 to 1894, and received the Ph. B. degree June, 1897. He then went to Columbia university, New York City, and attended the regular session of 1907-1908, the summer sessions in 1907 and 1908. He received the A. M. degree from Columbia and Master's diploma in education from the teachers' college, May, 1908. The education work represents major studies in school administration and allied courses with emphasis on teacher training.

As a teacher, Prof. Richardson was a teacher in the rural schools of Holt for two years from 1891 to 1893. He was superintendent of the Shelbyville schools for four years from 1897 to 1901, superintendent of Shelbina schools for six years from 1901 to 1907, and elected for the 1908-1909 session. He was county commissioner of public schools of Shelby county, November 1898 to 1903. He was professor of school administration and history of education, fourth district normal school at Springfield, Mo., from 1908 to 1911. He was director of the training school at Springfield, and came to the Northwest State Normal at Maryville in 1911, and has been the head of the department of education and training since that time.

Prof. Richardson has been active in school matters in Missouri. He has knowledge of organization of Missouri state normals and others through visitation and acquaintance with faculties. He was a former resident in the fifth district, having knowledge of its people and economic and other conditions. He has had his residence in this state for more than thirty years, and he has an intimate knowledge of schools, school men, and tendencies in the state for more than fifteen years. He is a member of the State Teachers' association and has been since 1897, giving him personal acquaintance with leading school men of the state. He is an active member of the National Educational association since 1904, giving him personal acquaintance outside of the state. He has an intimate knowledge of present needs and conditions of the school from personal contact.

Prof. Richardson will make a good president, and the Democrat-Forum wishes him success in his new field.

LISTS GOOD FERTILIZERS.

Bulletin of the College of Agriculture Tells Farmers Which to Use.

A new bulletin dealing with the fertilizers has just been prepared by the college of agriculture and is now in press. The bulletin gives descriptions and chemical constituents of the standard grade of fertilizers that are to be used in Missouri under the state law.

Heretofore much alleged deception has been practiced by the manufacturers of fertilizers in regard to the materials used in their products. The legislature passed a law which regulates the manufacture and sale of fertilizers and compels the use of certain constituents in them. The new bulletin tells what these constituents must be. It also tells the farmers what brands of fertilizer he can safely buy.

To ascertain the different manufacturers that conform to the standard, the college of agriculture sent inspectors to about seventy-five counties throughout the state to examine samples. The firms whose products were deceptive or were not up to the standard were blacklisted.

THE WAR STILL ON

CONTEST BETWEEN STATE AND COMPANIES CONTINUES.

WILL REVOKE LICENSES

In Spite of Threat of Insurance Commissioner the Companies Continue to Notify Agents to Suspend.

Several other local agents received notices Friday and Saturday from fire insurance companies to suspend writing business here on account of the new law.

Charles G. Revelle, state insurance commissioner, said Friday that he would revoke the license of any fire insurance company that refused to write business in Missouri because of the recent legislation extending the anti-trust laws to fire insurance. The insurance men say that they can't do business safely in this state under the new law and can't use rate cards. They point out if two agents should happen to charge the same rate they could be sent to the penitentiary for conspiracy.

So the war between the state authorities and the fire insurance companies goes on, and what will be the outcome is not known. Up to the present time only union companies have withdrawn, but many are of the opinion that the non-union companies will also withdraw. However, no action has been taken by the non-union companies.

Paul Sisson, an insurance agent, received notices from the Insurance Company of North America, and also from the Fireman's association of Philadelphia to suspend business here.

Nash & Glass received a notice from the Hanover Fire Insurance to quit business.

Mayor A. S. Robey received word from the Fireman's Fund of San Francisco to stop writing business. Mayor Robey also received a letter from the Metropolitan Life Insurance company, in which they say that they want the insurance license tax of $15 repealed in this city, so they can do business here.

Otis & Snodgrass received word from the Philadelphia Underwriters' agency of the Insurance Company of North America, advising them to discontinue writing business April 30. This company, in writing, says:

"For the past five years we have paid to our policy holders in Missouri for losses $75.96 out of every $100 collected in premiums. Adding to this 40 per cent for expenses, including state taxes, municipal and agents' licenses, inspections, supervision and commissions, and we find that for every $100 received for premiums we have paid out $115.96."

O. L. Holmes, local agent for the American Insurance company of Newark, N. J., received a letter Saturday, explaining the company's views on the Missouri situation. The letter in part says:

"At an expense of approximately $200,000, the fire insurance companies, through the Missouri actuarial bureau, have made a recent inspection of property in Missouri, and we are disposed to believe that the rates arrived at by them are not unreasonable. It is extremely unfortunate for the people of your state that recent legislation compels the actuarial bureau to discontinue its labors. Our experience in your state, as compared with that throughout the territory of this department as a whole, does not indicate that we can afford to ignore intelligent inspection and rating of property which it is desired to protect from loss by fire.

"From the exhibit of the business of this company for the past five years in Missouri, it will be seen that with a loss ratio of $66.76 and an expense ratio of $38 for each $100 of premiums received, we have an expenditure of $104.76.

"I wish to say right here that we do not longer propose to draw upon the slender profits of other territory to contribute to Missouri's delinquency. We have in the past five years returned to the citizens of the state nearly $700,000 in payment of losses. We shall not lessen by accepting inadequate rates the quality of your indemnity and must therefore decline business where conditions are not favorable to at least a moderate profit."

Mrs. S. A. McLaughlin of Savannah, who has been visiting Stanberry, went to Hopkins Saturday to visit Mrs. Stephen Pistole and other friends.

Mr. and Mrs. G. W. Gordon returned Saturday noon from a visit with their son near Arkoe.

MAJOR SIGNS ROAD BILL.

Governor Approves Measure Providing for Dragging Highways Between County Seats.

Governor Major on Friday signed senate bill No. 49, which appropriates $15 per mile for dragging roads between county seats and creates a county highway board to have charge of the work. He vetoed senate bill No. 123 by Senator Carter, which distributed the good roads money equally among the several counties of the state.

The money to be used on dragging the roads between the county seats is the automobile license fund. The bill means a great deal to every county in the state. In this county there will be a road dragged to Rockport, one to Grant City, one to Albany and one to Savannah and Oregon, etc. While these roads will be mainly traveled, still it is expected that roads leading up to them will be kept in fine condition in order to get some of the travel.

WHAT THEY DO IN GREEN.

In Wet Season Farmers Go to Town on a Drag Instead of Using a Wagon or Buggy.

Green township has many very enterprising farmers who believe in good roads and in keeping them up. Our attention was called recently to the fact that in that township during the wet season this spring the farmers went to Quitman driving a team or two to a road drag, and in town after trading, returned to their homes still dragging the road along the way coming and going. Not only has one farmer worked this, but several others, with the result that it has helped the roads in that township.

Efforts are being made in Polk township to get the farmers to drag the roads. This township has some of the worst roads, and it is due to the fact that they are not dragged. The farmers here should get busy.

High School Notes

The Postia Quid society held a meeting Thursday afternoon and although there was not a large attendance, which was due to the track work out, it was a very enthusiastic session. The next meeting was postponed another week on account of the preparation of the track meet next Saturday.

Has Disappointed Them.

Governor Major has disappointed his critics in several instances recently. They charged him with securing the passage of the utility bill in order to build a machine for himself. While the bill did not call for a bi-partisan board, he has appointed two Republicans as members of the board and three Democrats. He vetoed the Standard oil bill when it was predicted that he would sign the bill and thus nullify the anti-trust laws in the state. He has declined to call an extra session of the legislature at the demand of the insurance men and calls their bluff by notifying them that if they withdraw from the state they'll not get back while he is governor. Well done, Governor Major, you're all right just as we expected of you.—Gallatin Democrat.

Entertained Girls of W. R. C.

Mrs. Scribner Beech, Sr., opened her home to the girls of the Woman's Relief Corps, one of whom she is, Friday, from 9 o'clock a. m. until 5 o'clock p. m. The day was delightfully spent in quilting, two quilts being the result of the day's work. At 1 o'clock a two-course luncheon was served, during which Mrs. Scribner Beech, Jr., presided at the victrola. When the girls were invited to come to Mrs. Beech's home they were asked to bring a package and take one away. These packages were opened after another lunch was served at 4 o'clock, each opening one brought by somebody else, and much amusement resulted from reading the written messages that accompanied the packages. Mrs. Braniger, the president, made an appreciative speech just before the departure, and Mrs. Honnold proposed three cheers for the hostess, which were freely given. The hostess was assisted in entertaining by Mrs. Rankin Lyle and Miss Elizabeth Saunders. Although everyone had an excellent time, the girls were kept from becoming too hilarious by the presence of the "mother of the corps," Mrs. I. M. Woods. She has heretofore been somewhat given to gaiety herself, but about two weeks ago she and the captain celebrated their fifty-fifth wedding anniversary, and it is supposed she resolved to settle down, for she has acquired a surprising amount of dignity since, and it becomes her wonderfully, so much so that she seems years younger. Two members were present for the day's festivities, Mrs. Sipes and Mrs. Hartman, who have not been able to meet with the corps since last fall on account of sickness. The guests included Mrs. Linnie Braniger, Mrs. Mattie Wade, Mrs. Eliza Black, Mrs. Margaret Hartman, Mrs. Susan Townsend, Mrs. Catherine Funk, Mrs. Fannie Pinnell, Mrs. Catherine O'Neal, Mrs. Catherine Miller, Mrs. Minnie Ford, Mrs. Ella Morris, Mrs. Susan Smith, Mrs. Belle White, Mrs. Mary Herren, Mrs. Sarah Satterlee, Mrs. Viola Croy, Mrs. Jennie Reece, Mrs. Mary Etta Kelley, Mrs. Louisa Maier, Mrs. Maura Moore, Mrs. Nora Holbrook, Mrs. Mary Jean Honnold, Mrs. Flora Quinn, Mrs. Minnie Hopper, Mrs. Mary Hook, Mrs. Laura Housal, Mrs. Anna Bennett, Mrs. Mary Dickerson, Mrs. Lavina Dickerson, Mrs. Henrietta Lahr, Mrs. Mary A. Beware of Ointments for Catarrh That Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Healthy Old Age Is What Dr. Hartman Advocates

S. E. HARTMAN, M. D.

See here, young man, I heard you complaining the other day of being nervous, sleepless, brain fagged, and the like, A young man, hardly in the zenith of your life, complaining of such things!

And this is very common, too. You are not the only one. Probably three out of four of the young men of to-day have just such symptoms as you describe. What does it mean?

Look at me. I am eighty-two years old. Sound as a nut. Tough as hickory. Do not know what it is to be tired. While I cannot do as much physical work as I used to when a young man, I can do a great deal. Probably twice as much as the average young man of to-day.

What has kept me so strong and well? I will tell you. I do not use tobacco. I do not use alcoholic stimulants. I do not use tea or coffee habitually. I go to bed early. I get up early. I am always doing something; something that occupies my body and mind. I love to work. I take a cold water towel bath every morning, winter and summer. It is these things that have kept me well and strong. You could be just as well and strong as I am if you would do as I do.

You may ask, do I never get sick, have I never had occasion to take medicine at all? Yes, I have got sick. Sometimes I feel a little touch of climatic trouble, like cold, malaria, slight catarrhal symptoms, but my only medicine is Peruna. I always keep a bottle of Peruna in the house. I keep a bottle of Peruna on my desk in my office. Once in a while I take some. I do not take it habitually. Take it only when I feel a little out of sorts. One swallow will perhaps be all that will be necessary, but it is always handy by.

It is a sorry sight to see the young men of to-day begin to peter out physically when they ought to be in the glory of their manhood and the height of their vigor. Eat plain food. Live frugally. Give up all weakening habits. Live as God intended you to live. Take Peruna when you do not feel as well as usual.

If you want me to I will send you a book which will tell you a great many more things about yourself and about matters that may be of great value to you. Enclose a two-cent stamp for postage and the book will be sent in a plain wrapper and you will not be troubled with any follow-up letters or advertisements. PERUNA IS FOR SALE AT ALL DRUG STORES.

SPECIAL NOTICE—Many persons are making inquiries for the old-time Peruna. To such would say, this formula is now put out under the name of KA-TAR-NO, manufactured by KA-TAR-NO Company, Columbus, Ohio. Write them and they will be pleased to send you a free booklet.

To Kansas City Hospital.

Roy Craig, a barber at Clyde, was taken to St. Margaret's hospital in Kansas City Friday night, where he will undergo an operation for appendicitis. Misfortune has seemed to keep pace with Mr. Craig pretty closely. In boyhood he contracted rheumatism and laid in bed a year from it. The disease settled in his right hip and leg and their growth was stunted. A year from the time he was able to be out of bed he fell and broke it again. Just as he was pulling himself together financially from that accident he was exposed to smallpox and was sick a long time from it. He had gotten over all those things and was far enough away from them to refer to them in a very humorous way, when lo, he is taken with appendicitis, and he sees his little pile of savings already gone. He is a cheerful young fellow, and his friends predict he will come out of this trouble all right, just as he did the other things that pursued him. In the meantime they are planning to give him all their patronage when he gets back, to help him up.

Phones—Hanamo 17 1-3, Bell 126

Be Patient, Telephone Users

During the work of installing the new switchboard and changing the phones from the old boards to the new, there is bound to be more or less inconvenience to our subscribers. We ask you to be patient during this very trying time, as we are using every precaution and going to a great deal of trouble to make these inconveniences as few as possible, but the task is greater than you perhaps imagine, and there will be some trouble despite all we can do.

So far you have been exceedingly patient, seeming to understand our difficulties, and for this we thank you.

Why This Trouble

There are several reasons why there must be trouble. Just so you will understand, we'll explain some of them.

First—The new board is an entirely different sort of apparatus, with its signal lights and improvements and automatic ringing devices. This being so, it is a difficult matter for even the experienced operators to handle it with the facility that has become theirs by long handling of the old boards. As for breaking in new operators to handle the service during the transfer, that is out of the question, because they would find it especially difficult.

Second—When the operators are taken from the old boards—both of which, of course, are still in operation—these are left short-handed, thus crippling the service.

Third—As the old subscribers are transferred to the new board, a "trunking" system must be employed in order that the service between the divided system may not be interrupted—and this is slow and cumbrous, but unavoidable.

Stick to Your Old Number

When the Bell subscriber is transferred to the new board, he takes a new number in nearly every case, because his old number conflicts with the Hanamo numbers which will be retained when the two systems are finally merged on the new board. But please call for the old numbers until you are especially notified, even if you happen to know the new ones. We are taking care of the matter with duplicate numbers, according to a simple plan that the operators all understand. Giving them the new number would confuse them.

Don't Crank to New Board

Where you have been transferred to the new board and your old phone changed for the new service, don't use the crank in calling central or ringing off. The phone is automatic, and cranking will get it out of order. If we had time, we'd remove all the old cranks, but we can't get around to it for awhile.

Don't Hang Up Until Call is Through

Get out of the habit of hanging up your receiver when you go to call someone else to the phone. Under the old system this didn't make much difference, but now it means that you thus give a positive signal to the operator to disconnect you, and you lose your party entirely. Let the receiver stay off the hook until you are through using the phone.

Ignore the Tinkle

After your phone has been changed over to the new board, ignore the tinkle when the bell rings just faintly. It's a trouble that will be removed soon, but can't be helped now. If you answer the tinkle, your action calls central, and takes time and means additional trouble for both you and central.

Use the Hanamo

Subscribers having both Hanamo and Bell phones will find that they will get better service by using the Hanamo during the work of transferring the phones.

CLARK AND BRYAN BURY HATCHET

Both Make Public Statements of Their Friendship.

MEET AT PRIVATE LUNCHEON.

Political Circles at Washington Intensely Interested in Reconciliation. In Secretary's Statement Speaker Is Characterized as "Progressive."

Washington, April 19.—Speaker Champ Clark and Secretary William Jennings Bryan met at a private luncheon here, shook hands and issued public statements that they had buried the hatchet and put the personalities of the Baltimore convention with the bygones. The luncheon was arranged by Theodore A. Bell of California.

Intense interest was aroused in political circles over the reconciliation of the two antagonists, whose differences became acute as a result of events at the Baltimore convention.

Secretary Bryan's prepared statement is as follows:

"My meeting with Mr. Clark has served to clear up a misunderstanding as to my exact position toward him at the Baltimore convention. I have tried to make it clear to Mr. Clark that I have always regarded, and do now regard him, as a good, clean progressive Democrat. If my language at Baltimore created any impression that I was charging Mr. Clark with being in sympathy with any of the reactionary forces, I am glad of the opportunity to correct any such misconstruction of my words or actions, for I did not intend to reflect upon either the personal or political integrity of the speaker. It is my earnest wish that there may be cordial co-operation between the state department and the speaker in carrying out the policies of the administration."

Clark's Version.

Here is Speaker Clark's statement: "It is beyond the power of Colonel Bryan or any one else to correct the injustice that was done to me at Baltimore. The loss of the nomination was a small thing as compared to the injury done to my reputation in the eyes of the world.

"But now that Colonel Bryan, in his public statement, has done what he could to remove the injurious impressions that were created by his Baltimore speeches, I feel that we can all the better co-operate for the good of the administration. I can only repeat what I have publicly declared time and time again, that all personal or selfish considerations must give way to the duty that all Democrats owe to our party and to our country."

Just Like Old Pals.

Those in charge of the affair said Speaker Clark and Secretary Bryan exchanged jokes and had a good time. So far as known it is the first time the men have met since the Baltimore convention. Speaker Clark's friends have always said Mr. Bryan prevented his nomination and that it was through Mr. Bryan's activity and influence that the convention, contrary to custom, refused to give the speaker the necessary two-thirds vote after it several times had given him a majority. The reconciliation is looked upon in political circles as the most significant development of the administration so far.

FELT BAD ALL THE TIME

Shellhorn Lady Suffered a Great Deal, But Is All Right Now.

Shellhorn, Ala.—In a letter from this place, Mrs. Carrie May says: "A short time ago, I commenced to have weak spells and headaches. I felt bad all the time, and soon grew so bad I couldn't stay up. I thought I would die.

At last my husband got me a bottle of Cardui, and it helped me; so he got some more. After I had taken the second bottle, I was entirely well.

I wish every lady, suffering from womanly trouble, would try Cardui. It is the best medicine I know of. It did me more good than anything I ever used."

Cardui is a woman's tonic—a strengthening medicine for women, made from ingredients that act specifically on the womanly organs, and thus help to build up the womanly constitution to glowing good health.

As a remedy for woman's ills, it has a successful record of over 50 years.

Your druggist sells it. Please try it.
